

Damage #	Category	Name	Damage Description	Status	Address	Project #	Project Title	Site Inspection Required?	% Work Complete	Approx. Cost	Labor Type
262191	A	Building 7 - Parsonage - Demolition	The 4000 ft sq FUMC parsonage community facility was damaged beyond repair and needed to be demolished ASAP for safety considerations. The cost for the demolition to the FUMC was \$5000 plus forced labor oversight.	Active	Port St Joe, Florida			No	100%	\$6,000.00	Force Account and Contract
255131	B	EPM Donated Resources	Any donated resources and/or volunteer labor (and volunteer work related) work need to be under this CAT B	Active	1001 Constitution Drive , Port St Joe , Florida, 32456			No	50%	\$20,000.00	Donated Resources
248729	B	EPM Campus Wide October 7-9 & November 25, 2018 -	Due to Hurricane Michael affecting all ground and second floor exterior and interior parks, playgrounds, parking lots, signage, storm water, management, structures, utilities, contents, and equipment - entire campus. Volunteer removed sand & debris from both parking lots. Work performed by FA labor, contract, and volunteers. Receipts & documentation forthcoming. Oct 8-9 - In preparation for Hurricane Michael church volunteers sandbagged around all doors and moved things to higher ground. Put elevator in upright and locked position. Put plastic up about 4 ft. around all buildings. Additional emergency repairs have been completed.	Active	1001 Constitution Drive, Port St Joe, Florida, 32456	80035	EPM Campus Wide Oct 7-9 and Nov 25th and beyond	Yes	75%	\$50,000.00	Force Account and Contract
248730	B	EPM 45 days (October 10 to November 24, 2018)	purchased tools, Kubota tractor. FA labor and volunteer labor. Floor ventilation systems dried. Squiggles were utilized to assist in removing flood waters. Area was cleared of debris and electrical panels were underwater. Trees and upside down vehicles removed to gain access. Applicant was without power for 16 days. 5 Generators were utilized for lights, air, 2 sump pumps, fans, chain saws and other power tools, refrigeration. Volunteer Labor security was utilized due to not being able to secure the building due to breakage of windows and loss of all exterior and most interior doors. Flooded sheet rock cut out 8' to prevent mold, flooring removed due to surge force water flooding, floors and walls sprayed with purchased Shock Wave treatment to prevent mold and mildew for safety of all entering the buildings. Two to three inches of sewage backup took three or four weeks to make sanitary. Some interior, destabilized walls removed. Boarded windows, boarded up many doorways. Tarpred the roof over sanctuary and offices. Debris pulled from interior of buildings and placed roadside for County pickup. Plumber hired to fix grinder pump and electrical. Electrical panels made usable until they can be replaced. Generators utilized for shower and laundry trailers brought in for health and safety of general public utilizing due to no power or water	Active	1001 Constitution Drive, Port St Joe, Florida, 32456	79440	EPM State Identified 45 days (October 10 to November 24, 2018)	No	100%	\$115,000.00	Force Account and Contract

255144	B	EPM Temporary Facility for Care Closet Critical Service	The Care Closet (originally on 4th street - building owned by the church) - has been serving as a critical facility since the storm providing services city wide. Shortly after the storm the Care Closet moved to a city owned facility so that the pre-school and day care could move in and begin to offer services again due to damage at the church. The care closet continued to provide critical services - clothing, food, and water (essential given half the city was with out) with primarily volunteers at the city facility through February. The care closet beginning March 1st relocated again to a downtown rented 4th street location continuing to provide critical services to Port St Joe and the church as it was required to move out of the city owned facility. The care closet cannot move back into its' pre storm location because of the damage to the church and the need for the church owned building to service the pre-school and day care. Rent for the new emergency care closet location is @\$2,200 /mo. until repairs are completed at church (may need to apply for time extension) Temporary Contract to be uploaded for emergency reimbursement.	Active	1001 Constitution Drive , Port St. Joe, Florida, 32456	80045	EPM Temporary Rented Facility	Yes	50%	\$39,600.00	Contract
253105	C	Storm Water Drainage	Storm Water Drainage - 2 Major 4 ft diameter city / community / church storm water drains run directly through church property with some extent under buildings. Both drains have possible damage due to high head water intrusion and release of 15+ ft of water above grade during the event. One drain runs under the MLC and around the property near the bayside playground and storm water retention pond. The second runs underneath the sanctuary building. Both need scoping and engineering analysis by engineering firm. Repairs may be needed.	Active	Port St Joe, Florida	80081	Utilities and Storm Water Drainage	Yes	0%	\$55,000.00	Force Account and Contract
248731	C	Parking Lots, Lot Areas, and Surrounding Structures, Lot Signage, and General Church Signage	Parking Lots, Lot Areas, and Surrounding Structures, Lot Signage, and General Church Signage - Areas include 2 Parking lots (new lot @ 15,000 ft sq - old lot behind church @ 6000 ft sq), lot areas, and surrounding structures - Parking lots, lot walk-ways, sidewalks, entry and exit channels, require replaced and/or repaired for structural integrity, washout, and safety. Signage includes: 1) Church sign 10' x 6' illuminated electric sign destroyed 2) Post (wooden) church sign destroyed 4' x 6' 3) Historic signage for church 1960's sign constructed of RR ties damaged 4) All other signage lost or damaged - replacement & repair necessary	Active	1001 Constitution Drive, Port St Joe, Florida, 32456	79432	Parking lots, signage, walkways, sidewalks	Yes	25%	\$115,000.00	Force Account and Contract

248732	D	Water retention pond - drainage pipes in parking lot - sump pump in elevator shaft	Water retention pond - drainage pipes in parking lot sump pump in elevator shaft. 1) 5- 12" inlet CMP - 8" inlet x 1000' replaced in parking lot area due to damages 2) 3" to the pond 2" to the city drainage systems 3) Pond is contaminated due to debris from the surge force waters from the bay, local damaged structures, and flying debris. 6" to 8" water inundation above grade from the surge. The Pond needs to be drained, cleaned of debris and waste, dried, rebuilt as is needed. 4) Sump pump in elevator flooded shaft completed by Contract 5) May need larger pond for storm water runoff due to loss of natural (numerous very large pine trees) surface and groundwater adsorption and evaporation processes.	Active	1001 Constitution Drive, Port St Joe, Florida, 32456	79431	Water Retention Pond	Yes	10%	\$235,000.00	Contract
248733	E	Building 1 - Sanctuary and Offices - Structure	sf: Offices/Music Room/Classrooms 2nd floor; 3,200 sf Includes all internal and external: concrete, wood, steel, dry wall and particle boards; roofing; brick structures; Offices, Classrooms, Closets, built-in book cases, Hallways, Doors and Stairways to the west of the attached Bldg#3-Great Hall. All exterior walls and roof, all first and second floor windows (29) broken or breached allowing moisture intrusion. 14 large stained glass pieces. 1st; 2nd fl. and balcony floors; walls; doors (36 including 4 exterior and 4 historic); electrical; plumbing; roofing; ceiling; attached seating (pews); walls and windows; door failures. Roof replaced in kind shingles. Shingled roof damaged, leaks in offices, classrooms, stairwells, storage and equipment room, bathrooms, choir room, doors warped or gone, locking system on glass doors damaged beyond repair; glass inlay with metal casings. 2nd floor balcony stripped. Fire suppression system was damaged. All insulation violated. Bldg. #1 - The Sanctuary Bell Tower (Aprx. Size = 1000 ft sq) all Lexan covered windows out; railings gone " copper roof damaged. Bldg railings gone. The organ - part equipment (i.e. - will fall out of building and actually ended up outside on the road) and part attached structure was destroyed - the pipes and chambers were damaged beyond repair and are attached facility components. The	Active	1001 Constitution Drive, Port St Joe, Florida, 32456	79433	2 bldgs-Sanctuary - Bell tower (Historic): equipment for both and contents	Yes	5%	\$1,000,000.00	Contract
248735	E	Building 3 - Great Hall - Structure	Bldg. #3 - Great Hall " (Aprx. size ~ 14,000 ft sq) Damage occurred due to Hurricane Michael; portion of campus that includes the new lobby area, the new grand kitchen, the new fellowship / services area, and the outdoor rotunda: internal and external doors and internal and external walls, all windows, all floors and bathroom tile, all plumbing and sinks, all ceilings, kitchen, pumps and sumps, elevator, AV, HVAC system, roof, closets, hallways, electrical and plumbing. Elevator - The elevator reconstruction / repair has been completed replacement and/or repair. Lobby elevator shaft damaged. Fire suppression system was damaged along with all insulation being moisture damaged.
